Editorial

Curriculum and Media Technology Research - Journal of CUDIMAC (J- CUDIMAC) is a Multidisciplinary journal published by the Curriculum Development and Instructional Materials Centre (CUDIMAC) University of Nigeria Nsukka. The journal is primarily devoted to the publication of academic research contributions from scholars in diverse disciplines with strategic relevance to innovations in teaching and learning. The Editorial Board members and Editorial Consultants are experienced and reputable academics from universities within and outside Nigeria. The journal is published quarterly in print and online versions. However, there was an inexplicable break in publication between 2023 and 2024. This development accordingly accounts for why the 2023 edition is coming out now in 2025. Subsequently, the 2024 and 2025 editions will be published later this year in order to bridge the gaps resulting from the initial break in publication. Papers for publication in J-CUDIMAC are selected through rigorous peer review process to ensure originality, timelines, relevance and readability. It is therefore our expectation that the contributions in this edition and volume will have meaningful impacts on both theory and practice in teaching and learning across diverse discipline and curricula.

Prof. Okechukwu O. Nwaubani

Editor-In-chief
